

What others are saying about

Developing Quality Care for Young Children

By **Nettie and Paul Becker**

"The book's power is in its details which utilize nuance from the 'small places,' here a child care center. With detail of everyday moments in everyday lives, they breathe life into principles gathered from the study of many fields over decades.... This child care center is an inspiration, while Developing Quality Care for Young Children is, itself, a dedicated little miracle... The Beckers provide the light of substance for child care workers, directors, teachers, graduate and undergraduate educators, policy makers and "their" children alike, and its messages are a lamp into the darkness, clear, warm and true."

-- **From the Foreword by Rebecca Shalom Shanok**,
Director of the Institute for Infants, Children and Families
Jewish Board of Family and Children's Services

"I cannot think of anything pertaining to high-quality early child care programs that isn't covered in this book. The organization is clear, consistent, and easy to follow."

-- **Diane Salverson**, Inclusion Specialist
Early Childhood Direction Center, Buffalo, NY

"The book is well connected to literature, the author's own research and perspective, and an eye toward the future with tools for creating places for child care that are good for kids."

-- **Kerry Williams**, Learning Community Facilitator
Wayne State College, Nebraska

"Ask yourself the questions posed in this book, whether you are searching for child care or wondering why our smallest and most important citizens don't have more quality early education programs available in a more equitable manner. This is a great teacher's guide for those entering the field and a great staff development idea for ECE centers."

-- **Denise Humphries**, Preschool Principal
John F. Kennedy American School, Queretaro, Mexico
